(1)J. C. Rheingst: Sch. tom. 11 Dec. 1848. Advice Vice-Pres. of Raad: MN house not set up as Balaner to Sala. Affair too far advanced to prevent a marriage.

- No permission asked from PB VII none in 1823.
- Does not appear PB VII had advance of f. 200,000 or f. 50,000 from govnt. - S should refuse.
- Throne of MN must not be allowed to go to a Sala Sunan/Sala CP.

(2)Advice of J.C. Cornel de Groot: Res. Sala to make further enquiries as to need for advance.

Marriage proposals Sala-Yogya: * 18c: V.O.C. prevents marriage HB II = d. of Sunan PB III. * 1790 PB IV asked a d. of CP (HB II) in marriage 1790 but refusal of V.O.C. * Pakipung incident = severe idea of replacing PB IV & MN. * Peace restored = MN/Yogya foreswear old hate.

1798: PB IV wants to marry hospital niece to CP of Yogya - refusal of V.O.C. to allow it.

1823-30: 47 years old. Proposals PB VII. P. Ria (grandson MN II) marries only official niece of PB VII. PB VII 54 years old. MN set up as balance for Yogya not against Sunan. Loano/Pacitan Report

1793 van IJ. On pepper plantations: Loano, Gintang, Pacitan. * 700 cacahs / 168 junggr sawah. * 100 cacahs Indigo = Idea of netting up Indigo factory. * Owners / farmers to be released of corvée services to Sultan. After van O.'s visit to Yogya Apr. 1792 = van I. makes visit to pepper estates.

Loano + Adjacent lands = Winong / Malarang = 350 cacahs. 2 hours journey to W. Yogya. + Gintang = 150 cacahs. But pepper not suited for cultivation in area. During w. monsoon Praga floods its banks. Pepper gardens flooded.

Loano - suited to pepper cultivation: Red/moist soil. Small quantities of pepper had grown there for years. + Malarang similarly favourable: But too dry in E. monsoon.

Instead of Gintang, pepper should be planted in Nilo Jiyang / Pekalongan. Complaints of wong cilik about oppression / extortions by local chiefs. But no. of inhabitants not v. great. / Would plant more pepper if could escape from oppression.

Demangs of Loano - not forthcoming. + Lurahs fear to give information. By new system = Demangs cut out of local admin. of corvée deliveries. Not enough buffaloes.

Tum. Mangundipura = Family relationships & Demangs. (Tum. Loano) Says that Demang want 6 junggr of land each.

Footnotes

4. Govnat. to give money to Sultan for rent of land.
5. Pepper to be delivered first to Yogya then on Semarang. But v. costly in time: Res. decides to need yearly a pairing suitable Javanese to sort pepper; have it sent direct to Semarang.
6. 130-132 ponden per pikul of pepper.
7. Demang - 6 junggs of ricefields.
8. Instead of rented district, Winong Gintang would ask Sultan for lands of Nelotiyang / Pekalongan near loans + subjects to take part in laying out of pepper gardens.
9. Subjects to be protected from arbitrariness of chiefs.

For every 5 cacahs - 1-2 men to take part in planting. 6 junggs ricefields for each of 2 heads of loans. Sultan owes subjects of corvée labour for crown - no can devote himself to ricefields / pepper. Work in pepper plantations - obligation for having sawah.

HB II delivers area loans / Pacitan + willing to help in delivery of pepper Semarang. Willing to exchange Winong Gintang for Pekalongan / Nelotiyang. Lands belong to C.P. Ratu Bindara (ex wife of HB I) to be given other fertile lands in Majegan (domain) estates of Sultan. Local pop. to be freed from labour services. HB II despite having given orders about planting of pepper in area - doubtful about beneficial results.

Fear of HB II / Nayakas that if pepper plantations extended, V.O.C. influence would be increased in Central Java. + Wong alik would think that HB II had resigned authority in admin V.O.C. like pasisir areas. 1793

1793 Van IJ. P.J. Br. 45 Loano/Palitan Report 2 W. van IJnnerdijk 'Eerbridge Bericht'

700 cacahs of pepper lands—to be increased by 100 cacahs by new agreement. Labouren from Winong (where no pepper planted) to be used on estates.

V.O.C. could now begin to expect yearly 5,000 pikuls of pepper promised by HB II.

Original Act of Verbintenis of ARI. Pleasant adjacent lands/desas: Promised HB II—V.O.C. to be allowed 100 cacahs for setting up Indigo Factory at Palitan near Merapi. But indigo requires huge investment of labour (e.g. expenditure to get wood to burn indigo cooker). Doubtful if 100 cacahs enough.

Difficult to get Bupatis to surrender people = all hands needed to meet pajak/corvée services of HB II.

Indigo factory proposed to be set up near Merapi. But lack of people and wood. ∴ turns down proposed site. Area Winong more suitable = mountain streams/woods. Rice in wet season, indigo in dry season. HB II prepared to surrender people on 100 cacahs in Winong and allowed to look after rice fields in wet season.

In Loano/Winong etc. + 200 from Nolo. 700 cacahs (168 junges) in Palitan: not counting 200 cacahs in Palitan. Have v. good appearance/buzzed closely together. Indigo/pepper could be produced there: Pepper planted in wet monsoon/dry harvest. Fewer people needed could be used for indigo. Not counting 87 desas, 119 junges suitable for pepper. Outside Palitan 2,245 people could be used in pepper estates.

2 Demang increased to 4 by Sultan to organize labour force: Need for giving more buffaloes to inhabitants Loano/Masarang. HB II suggests ½ to be provided by Res. / ½ by Patih. Note that Sultanate keeps a semblance of control over the small land of Palitan: Extremely suited for cultivation of pepper, now growing well—similar to plots in Banten. * 40 hours journey e.g. Yogya – Transport difficulties. * Difficulties in smuggling could not be

prevented. * Paritan Inhabitants more disciplined/have to be treated much more carefully/gently than those in Loano/Winong. * Able to export pepper along rivers. Population already used to growing pepper. Difficulties in Paritan do not outweigh benefits. * 2-2 1/2 f.p. (rijksdaalders) should be paid per pikul of pepper.

Paritan – 200 cacahs/ 48 jungs ricefields. – Restricted to pepper cultivation. 200 to Nawah. Nawah ringed by mountains. Roads across mountains often impassable. Smuggling easy, but Chinese manning tollgates should be warned against it. Inhabitants have enough ricefields to live on – pepper could be grown [now to V.O.C.].

Survey of ricefields in Paritan shows that since peace of 1755, [it] had greatly increased in area. But increased area hidden from courts so local farmers could appropriate newly opened up ricefields.

Ending of corvee services – Regent declares that local inhabitants can make a good living. Giyanti Partition – more prosperous than in Hada [or] Kartasura.

Because [of] unusual oppression [by] local people – By heads/officials – must be handled more carefully than those in Loano.

Long distance from court – Reg. Nitrawijaya (now Wongnocitro) followed by Noz – takes advantage of situation. But old Nitrawijaya still in control. Population would depart if handled roughly.

Res. should keep an eye on Regent – (now Nitrawijaya, not as fair as his father) to prevent oppression. Nawah – [should] keep them happy. Total area of [land] to be raised from 6 – 12 jungs. People should also be liable for labour services in pepper plantations.

Loano – 26 jungs could all be planted [with] pepper. ## 1793 Loano/Pacitan Report 3

Van I.N. ⁵ Pj. Br. 45 Van I.N. Nerdyk (Herbudige)

Bay of Pacitan—¹/₂ an hour's journey across, hemmed in on mountains on both sides—open to south wind. Possible to use boats to take off pepper—but dangerous pirates who use large 2-masted brigs. Therefore, [need] to export pepper over land. If V.O.C. surveys bay, it would arouse fear in Sultan/Sunan that [they are] preparing to take it over.

8,000 old pepper trees in Loano—only produce 70-80 pikuls p.a. 10,000 [pepper trees] in Pacitan—in more flourishing condition than Pacitan—local inhabitants better able to look after them. 300 pikuls could be obtained this year from Jogya Pacitan. Ruota 370 [pikuls] [from] Nala.

⁵ Likely Van Inneryk, mentioned later in the document.

Total Pacitan/Loano lands suitable for pepper: 800 cacahs, 1 million pepper trees in Loano, 192 jongs ⁶. And another 144 jongs in both districts could probably be used for cultivation. 50 sq. roods = 1 jong.

Pepper gardens to be ringed [with] low walls in order to allow plants to sprout. Planting of dadap trees to shelter pepper bushes—already 100,000. Better maintained in Pacitan than in Loano. Each year 60-70,000 new shoots could be expected.

PRI—Dimangga Gagah Kemiter, Mangundiwiria ⁷ 22 Sept. 1792

Loano/Malatang freed of all corvée services and set aside for pepper under supervision [of] Tum. Mangundiwiria, and local Desa people should not be oppressed.

DRI—Van Inneryk 15 Jumadilakir Dal 1719 (28 Jan. 1793) For Pepper/Indigo: Loano, Loano/Nolotiyang, Pikalongan, 700 cacahs Malatang/Plaosan/Winong given to V.O.C. and 200 [cacahs] in Pacitan.

MZI: Frees them from corvée services so [they] can concentrate on pepper/indigo.

³² The text "Urimadningrat" is written with a prominent red vertical line drawn through the end of the name.

= Van IJ told to keep an eye on coast. MB II to be informed & E. MN. Regents to help watch in Regencies to come to aid of Gezaghebber d Oonthock troops if necessary. But does not want to worry MB II unduly = already known about war in England & fall of Malakka. Real aims/intentions of MB II a mystery, but outwardly loyal to V.O.C. Once English really begin attack on Java then Dutch should press Sunan/Sultan to honour their promises to give troops + Dutch dragoons to accompany troops.

Reason for Sunan's refusal to allow new Rigintu 1793-4: Because each believes has more land than other court & fear that if Rigintu made, process of evening out / balancing land would be insisted upon.

Nala Yogya = Believe V.O.C. can tip scales in favour one or other court = 1790 gives Nala a right.

Without presence of Dutch = Rulers would beat each other throats. Nala pregnant & plans to redress balancing power in Central Java in its favour.

British - Ceylon.

British capture Ceylon = & Javanese Exiles there including 2 scions of Kartasura court = P. Adipati Amangkurat / mas Ambiba.

Fear of Nala = Old prophecy in Java that one Amangkurat family would rule again one day in Java.

³⁹ Rangga Prawiradiningrat.

Footnotes

Present parlous condition of V.O.C. requires doubling of prudence with regard to courts.

Guard E.P.C. ⁴¹ against any contacts between English-court.

Van Overstraaten doubts PB IV ⁴² as cautious/suspicious (bijgelovig) as Van Greve makes out in 1790.

“Young, shrewd and full of life.”

P. Aria Kusumaningrat: Bad influence on PB IV.

PB IV marries 3rd wife d.o. Bp. of Pamekasan in 1791. Crown Prince born = 1785. Appointed c.r. ⁴³ in Aug. 1792 by Van Overstraaten. Crown Prince—doted on by PB IV but little done about his education (zeer verwaarloosd). ⁴⁴ Character could might be spoiled by too much doting.

- 2 children of 3rd wife:
 - o Princess—Ratu Pembayun (born 1795).
 - o Prince—(P. Purbaya) (born 1796).

Nusateng Ratu = given to P. Mangkubumi but had since died (i.e., pre-1796).
⁴⁵

Marriage link Ratu Kencana + P. Mangkubumi.

P. Buminata m. d.o. Bp. of Pati.

Mangkubumi more fiery/energetic. Buminata gentle/subtle. Friendship of these princes—E.P.C. no PB IV v. fond of them.

⁴¹ E.P.C. likely refers to the *Extraordinaris Raad van Indië* (Extraordinary Councilor of the Indies) or a similar colonial administrative post.

⁴² PB IV refers to Pakubuwono IV, the Susuhunan of Surakarta.

⁴³ c.r. likely refers to *Crown Prince* (Kroonprins).

⁴⁴ “zeer verwaarloosd” is Dutch for “very neglected.”

⁴⁵ i.e., refers to “that is” or “in other words.” 2. MvO Van Overstraten 1796 Oct.

Footnotes

PB IV R.A. Nikartaji brought up by MN I ⁴⁶. But now returns to Nalatraton. Plan PB IV to marry Nikartaji to Yogyakarta must be foiled by getting her married to 2nd Nong B.P. Numenip ⁴⁷.

Pangeran

But ruling Numenip not keen for sons to marry Javanese princess but would bow to V.O.C. pressure. Too expensive and too dangerous.

Eldest Nong P. Numenip leads a very debauched life; not suitable.

Younger Nong conducts Numenip well—a major; a battalions Numenippers in Oosthoek.

HB II between 1792–1796 hated by brothers and Yogyakarta bupatis. If disturbances in Java, many Yogyakartaans would desert HB II and join PB IV who had talent of making himself loved by subjects. PB IV talent for making himself loved.

Despotic/unjust character HB II = 26 April 1796. Van Ov. warn him of desperate situation in Java.

HB II tied up to this woman but would not embroil himself in hostilities and Java without approval of V.O.C. possesses enough sense for that.

14 sons = 30 daughters of HB II alive in 1796.

20 Aug. 1792 at Limah Dhuwur (kraton Yogya) Crown Prince recognized by Van Ov. Possesses a very good character = 27 years old.

Ratu Bendara = v. much respected by other members of Royal Family.

⁴⁶ MN I: Mangkunegara I.

⁴⁷ B.P. Numenip: Likely a transcription or shorthand for a specific royal title or name (possibly referring to a member of the royal family such as a Pangeran or Prince). Mangkudiningrat: In disfavor but lives in a very reduced circumstances (in another fashion). But conducts himself in a v. quiet way.

⁴⁸ The term “Demang” is circled in red in the original manuscript.

Refuse of HB I to say respects to an incoming S.S. in Semarang.

[But Point Eventually Resolved by Art. 24 of contract of 1792 whereby S.E. allowed to instruct felicitations to be given in Semarang and not Batavia.]

Affair ended in 1788. PB IV also agrees to Article. 28 Dec. 1795 = MN I dies aged 71 years old.

[P. Prangwidana allowed to succeed to 4,000 cacahs but not allowed to inherit MN I's title of P. Adipati.] [Should enjoy position after Nala Crown Prince.]

[Trouble to get agreement of PB IV to successions.] Much trouble to win PB IV over to agree to inheritance of Prangwidana & difficulty in 1795.

But 25 Jan. 1796 allowed by PB IV to succeed to 4,000 cacahs & name P. Aria Prabu PWP. Need of V.O.C. to use PWP as a balance to Suran.

Footnotes

PB IV shows signs of complete loyalty to V.O.C. After death of MNI in 1785 = V.O.C. no longer pays N.p. 4,000 for upkeep of troops. Equal division of inheritance of MNI but no mention of Van R's appropriations = divided up on advice of priests. Need for V.O.C. to choose successor for PB IV in case of his sudden demise.

1790: Exchange of visits by Patih of Mataram/Yogya to each other's kratons to iron out outstanding difficulties between courts.

Jocya mutual compliments 1790

But mutual compliments could not be exchanged between rulers via Patih because of sickness of PB IV + marriage celebrations in Mataram = Ratu Kencana. But do not go through. PB I dies before relations could be restored via Patih.

Only 4,000 N.p. given yearly to MNI in 1790 = 1,000 set aside in 1793 for P. Aria Kusumadiningrat who had recently returned from Ceylon to get him away from PB IV and keep him at Semarang.

PB IV falls out with Kusumadiningrat in Semarang and asks V.O.C. to exile him from Java = sent to Batavia in Aug 1795. Looked after in Batavia by Commissioner for Native Affairs.

PB IV falls out with MN Prince Kusumadiningrat HB I wants van Or. to be in Yogya at the time of his death = But reluctant to call van O. in vain.

P.B. IV says (sealed letter) that in the event of his death, guardianship not to be given to van O. or another V.O.C. official + Patih / E. West Inner Bupati.

Agreed to by van O. in letter 12 Jun. 1792.

Prangwidana + his house no danger to Nala court = Because completely loyal to Dutch.

R.J. Natrawijaya (R. Adip. Mangkupraja) succeeds as Nala Patih in 1796.

R. Adip. Jayaningrat dismissed because was corrupt / harsh government on common man.

Mangkupraja = appears to be a skilled / intelligent Javanese. Seems attached to Dutch.

Danureja I = has good heart to V.O.C. already 83 years old - lived out.

Natayuda = falls into disfavour. Only an Adjutant tuwon now. Hatred of Nuradiningrat for Natayuda = ND works through wife (Ratu Bendara) to ensure downfall of Natayuda.

Van O. doesn't take up question + because critical time for V.O.C. 4. Mvo van Overstraten

People say that HB II had dismissed Natakusuma from powerful positions in order that he should not be in the running to succeed as Patih when DRI died.

Despotic Natakusuma, Rule = New Patih would have no choice but to bow to his orders rather than acting as a bridge to Dutch.

Manuhra = a v. obliging = courteous Javanese but not much talent.

Meeting van Ovt [Overstraten] + PB IV [Pakubuwono IV] at Kartasura: at first PB IV wishes to deny undertaking to give lands to Prangwedana.

Van Nieuwkerken = possesses v. sound judgement + has talent to make himself known + trusted by Javanese / much local knowledge.

1792: HB II asks that van Nieuwkerken should be allowed to continue at court as first Resident, but falls into disfavour + asks to be replaced as Resident.

HB II - Van IJ [Van IJsseldijk] quarrel.

Van Ovt corresponds to HB II about Van IJ. HB II replies v. abruptly that [he] wants to get a new Resident by Aug. 1796 but would allow Van IJ to remain another year. Van Ovt says that Van IJ would have to stay on at least another year.

Because of danger for invasion = Van Ovt does not dare to be firm + HB II on a replacement of Van IJ.

ID to ID, 20 Feb 1796. Difficulty of appointment of PWP, people cannot choose a suitable name. PB IV refuses to allow him to succeed in name of grandfather MNI. PB IV suggests 4 names for PWP, but all too low.

PWP then suggests: * Aria Prabu Amangkurat * Aria Prabu Mataram

But Mangkunegara = unsuitable for Nala Yogya, Mataram would annoy Yogya.

Van Overstraten ⁶⁵ himself suggests name of Aria Pringwidara to avoid all argument in Nalat to hurry up appointment of PWP.

1. 3 eldest illegitimate sons of MNI press for divisions [of] 4,000 [?], chaos amongst family members. Mangkunegara had put 3 sons of MNI up to asking for lands. Nona Desist [?] eldest apologizes to Van R.

PB IV whispers in PWP's ear at time of taking oath that he hopes PWP would take side of Javanese more than V.O.C. PWP now replies that would depend on whether Javanese treated him well and remained on good terms V.O.C. — otherwise would not do so.

P. Aria Danumadiningrat (in exile in Namarang) says that MB had approached PB IV numerous times to attack Saling MN. MB planned attack on Saling MN II. PB IV had often discussed it with Danumadiningrat who had always dissuaded PB IV saying it would lead to trouble for Nala Conat.

KA to be allowed to go back to Nala Conat in 2-3 days. HB II rules in such a capricious way that nothing done, subjects hate him.

⁶⁵ The text appears to refer to "Van Ovr.", which is contextually consistent with Pieter Gerardus van Overstraten, a Dutch colonial official. Van Or - Alting, Feb. - Apr. 1796. N.O.K. 47 'Namarang Jan.-June 1796' Apptmt. of PWP.

10 Feb. 1796. HB II informs Van Or. of dismissal of Natunungrum as DR I. NY had done by hatred of ND towards him.

Cannot take up Yijair and HB II because V.O.C. not powerful enough.

Nala/Yogya to be informed of Treaty of Friendship between France-Holland. But would have to explain that Holland not to follow Fr. Rev. principles — which had been frequently painted in such black colours to rulers.

This is a scan of a piece of tan, cardstock-weight paper, likely a file folder divider. It features a tab on the left side with a small, white adhesive label printed with the number "1801". The right edge of the paper contains four circular punch holes for document binding. The paper surface is plain and contains no other text or significant markings. ## Van Reede MvO [1801]

PB IV⁷⁵ gives impressions being considerably less impetuous & inclined to intrigues than in earlier years = acts as trusted ally of V.O.C.

⁷¹ The line "Death of DRI dies at 2 p.m. (54) Javanese years old" is underlined in red ink in the original document.

⁷² The text "at request of HB I" likely refers to the Sultan (HB = Hamengkubuwono).

⁷³ "DRI" likely refers to a title or office, possibly the *Danureja* (the Patih or chief minister).

⁷⁴ Includes a small asterisk symbol pointing to "(? Japan)".

Saturdays makes tour on horseback on thine. During day always tells Res. if goes out = Sometimes also goes out at night incognito - does not tell Res. = only accompanied by few escort.

⁷⁵ PB IV refers to Pakubuwono IV, the Susuhunan of Surakarta.

⁷⁶ MSS. is an abbreviation for manuscripts. CP makes himself loved by common people because not oppressive like PB IV.

MB I v. Randy Nintenes any one to Death = *unless absolutely necessary = not a vindictive man Even if caught in MB I's neglie(?) = unheard of for a Jav. Ruler.*

Undang II great increase in Night Robberies = if many princes have a hand in them = p. P. Ngabchi Patih at present in gaol.

Beuweg High Jaresg (?) MB II = no concern for common man as MB I now.

Groothartig en Oploepend van hart = No one dares to gainsay him - not even Panjis.

Nathakusuma = Through mother, old Kedhu dynasty = has great influence in Kedhu = much apanage land there. Of disturbances 1813.

Courteous/soft character makes him loved by whole court. Acts quietly/honestly = does not press ambition. HB I had prophesied that [he] would one day play an important role.

Many Princes/Bupatis = secretly attached to him. E.g. Mangkuningrat who shows him special respect.

HB II had promised HB I that [he] would not take anything away from positions NK. But soon after accession = [he] takes away some of NK's ornaments. = Friendship NK/HB II broken.

Nederburgh visits Ngayogyakarta = wants to visit court. But plan has to be postponed. Because HB II refuses to pay proper respects to Nederburgh as a Commissioner = wants to place him on same level as ministers.

Natan prepared to receive him [with] proper seat = But Natan refers to difficulties which had followed on Van Imhoff's visit to Solo in 1746 leading to Mangkubumi's departure from court = HB II not prepared to receive Nederburgh = HB II make difficulties about "how" = 3/4 high ranking Dutch officials who would all have to sit next to each other would make HB II ashamed in the eyes of his subjects. N.o.k. 47 mvo Van Reede 3.

Ned. Visit to Yogya cancelled.

But HB II persists in refusal to accord Ned. any greater respect than for a Gov. y Java. (? N.o.k.) ⁷⁷

Although would met him at Valley y Jean ⁷⁸ & would send Crown Prince to Kalavan.

No stipulation for such a visit in contracts & Yogya.

But would treat Ned.'s visit to Nala if did not go on to Yogya, as great insult = Says that God had chosen him "To uphold the honours the Jav. Nation" ⁷⁹

Jnr conference & brothers ensures their loyalty = to adopt common front = & makes Rice Balls with his own hand which they all eat.

Ned. has to postpone visit to Both Yogya/Nala.

Sending of Patjis ⁸² to Semarang instead = word "leen" "Leenheer" ⁸³ do not occur in Jav. Trans: of contracts.

Martingh = speaks/writes excellent Jav. would not have let words slip by = But changed? in Yogya copy.

Visit Van Ov. tells Van JJ on return to Batavia in 1798 to get reinforcements to garrisons in Nala/Yogya.

⁷⁷ N.o.k. likely refers to *Notulen van de Raad van Indië* (Minutes of the Council of the Indies).

⁷⁸ This appears to refer to the *Jalan* or road near the valley.

⁷⁹ "Jav." is an abbreviation for Javanese.

⁸⁰ Possibly referring to a person or title (Prenggan?).

⁸¹ *Prajurit* is the Javanese word for soldier or warrior.

⁸² *Patji* or *Patih*, the traditional title for a high-ranking official or chief minister.

⁸³ *Leenheer* is a Dutch term for a feudal lord or liege lord. 14 Jan. 1800: Reply from S.G. that reinforcements to Natal Nogya garrison could not be attempted until reinforcements arrive from Holland.

Footnotes

V.O.C. powerless to force HB II to do something against his will = viz. O.G. Neil's visit.

HB II → NK

Capriciousness of HB II with regard to NK. NK refuses to give up certain privileges accorded by HB I despite HB II's insistence.

HB II [Hamengkubuwono II] in affair of Jaxa Term trying to put Resident in his place = making HB II's glory appear all the greater. HB II no wish to follow in steps of MB I.

During time of van IJ [van IJsseldijk] = HB II also makes changes in Admin. Jaxa Term. HB II would appear to Eng. as being more friendly and engaging than the Sunan, but he is not so civilized (urbane) and well bred.

New Battlements & Batteries of guns.

Patih & Nayakas complain about HB II in secret to vdB [van den Berg]. HB II's aims:

1. To get CP [Crown Prince] appointed Naltan on his death [illegible] without permission of V.O.C.
2. Refusal to accept Wedburgh as being more [illegible] to himself.
3. Refusal to allow subjects implicated in affairs + V.O.C. subjects to be judged in Semarang according to govt. law.

6. V.O.C. officials to get out of way when carriages of HB II going to Penanggrahan.

HB II shown lack of respect for V.O.C. in many ways. But no woe falling out [with] HB II as van IJ had done = vdB being always on cordial terms [with] HB II.

Van Overstraten counsels HB II to order HB II's concubines & one of most beloved wives to leave kraton because HB II gratifying his lust with them = & taking them out to Penanggrahan, etc. [He] also tells HB II to stop stealing wives of subjects for *Amazon corps*. One man who had refused to part [with] wife had been killed by being thrown down a well.

[He] should leave Pasisir alone = sends parties out to capture Chinese women.

Footnotes

The most prominent markings on the page are:

¹²⁶ P.B. IV refers to Pakubuwono IV.

¹²⁷ Banyumas is underlined in red ink in the original text.

¹²⁸ P.B. II refers to Pakubuwono II (though historical context in the notes suggests reference to Pakubuwono IV or the contemporary ruler of the time). This document is a piece of lined notebook paper containing faint, faded, and illegible handwritten notes. The text appears to be written in a cursive script using a light-colored ink (possibly pencil or faded ink), making much of it difficult or impossible to decipher.

- At the top center, there is a numerical notation written in red ink: “30-1081”.
- There are faint, shadowed lines of text distributed across the page, consistent with a handwritten list or a series of dated entries, though the ink is too light to reliably transcribe.
- The paper shows signs of aging, including discoloration and two punched holes on the right-hand margin with light brown tape reinforcements. #### 1803

2nd Question ? RICE CULTURE = DECREASE/INCREASE over last 25 years. If Rice Farmer remains near rice crop after allowance for his own consumption & deliveries for Sultan?

Waterloo Replies: That throughout JAVA CERTAIN INCREASE in RICE CULTIVATION. > "One has only to direct one's eyes to the lands which produce rice, and which before 20 years ago were still WASTE and UNCULTIVATED." > (men behoeft slechts 3yn oog te bevestigen op die landen waar thans rijst voortteelt, en die voor 20 jaren noch woest en onbebouwd lagen.)

RICE FIELDS reclaimed from woods - make the most lonely e.g. JAMBUS MAS in Kedhu. RICELANDS.

¹⁶⁶ *Malkardan* likely refers to a specific local term for decreased yield or a specific measure.

¹⁶⁷ Likely *Ngabehi* or a similar noble title. 116986

RICE FARMER usually brings his increase/extra crop to market even from the furthest désas. But because he has to pass a large number of toll-gates and bandars - the price of rice increases.

PRICE OF RICE? For White Table Rice = along road through Kedhu from Simarang -> Yogya. For some time: For a HORSE PICUL (i.e., 250 lbs) 240 CATTIES = 20 PICULS. 65 DUBBELTJES = 6.50 guilders. For less good quality: 60 DUBBELTJES.

Generally ONLY 2 MAIN SORTS OF RICE: ON MARKET in Yogya. More usual price table rice = 100 DUBBELTJES p. picul. Lesser quality = 90 " " ##

Example Profit Margin & Producer

- Bakul = Buys 240 catties White rice @ 60 Dus ¹⁶⁸
- Marketing Payment
- Hire a horse to take produce to Yogya @ 16 Dus
- Tax on each horse pikul @ market @ 2.8"
- Tolls/Gates: Mojelang/Wening/Kamlakka/Malater each 20 suits 0.5 = 3.-
- Hire horse almost same as profit = 15.6.
- 91.6 = profit = 8.4 - overhead ¹⁶⁹

Usual price for one horse pikul rice in Yogya market = 96 3/5 Dus/catties. On 240 catties = Bakul gets 2 3/5 per pikul. Scarcely 4 Dus/catties. Has to work 11 hours = passes bad/impassable roads. Also must look out for robbers. One pikul = 125 lbs. Carrying rice = 3750 lbs for 30 pikuls.

Rice in Yogya = more expensive than other places: * Poorer roads. * When compared to road along N. coast to Surabaya. * And Surabaya via Jala River. * Rice in Jala 1/2 the cost than Yogya. * Bagilen/Banyumas/Kema/Kedok = vast yielding rice: but transport difficult.

68 page Reply of Wat. [Similar letter in Pjokjo Br. no. 37] Wat. to Eng. 28 Feb. 1806. Asks for free export of rice to Semarang & N. Coast from Yogya & encourages opening up of new sawahs. MB II active in encouraging rice production in Yogya. Not possible to open up any new ricefields in immediate vicinity of Yogya. Everything has been done which could be done. Special messengers sent to F. MN by Wat to enquire into state of affairs there.

Concerning Export of Rice to N. Coast: i. Situation in MB II's lands = Mataram/Pajang/Kedhu/Bagelen etc.

Regarding commerce & panier. *Mataram:* Very fertile. Farmers. Well irrigated from Merapi/Jan. Lay out simple but effective irrigation system. Almost completely opened up to sawahs. Mostly rice produced.

²⁰³ "MB" likely refers to "Mangkubumi".

²⁰⁴ "Strandgeld" is an archaic Dutch term for a type of tax or coastal duty. - 8081 - 2081 (dead) ## 1805

Kedhu = V. fertile = sawahs high on flanks of Merbabu / Sundoro. A lot of water - but soil v. clayey. Mostly Tobacco/Rice.

Bagelen = Mostly owned by Sultan. Rice/cotton - cotton woven by inhabitants.

Exports to N. coast considerable: * Kedhu Tobacco / Rice from N. Kedhu to Kendal / Kaliwungu / Jambu via market at Jambu. * White / Striped / Batiked cloth from Yogya / Bagelen.

Most of Rice produced in area destined for local consumption. Cost of carrying rice to N. coast means little exported. Besides sale cost on N. coast less than in Yogya per pikul. Cheapest rice sold at 2 1/4 silver Rijks dollars per pikul (125 pounds). Garinos at Yogya supplied at 1 silver Ducatoon per pikul.

E. Mancanagara

In general more land devoted to rice. Rapid transport of products along Nala river. **Grobogan (Pindaj wirasari / Magetan)** = Can send products down Nala river. Receive back salt.

If tolls should be free along Nala river would help trade. But corruption of chiefs, local farmers not encouraged to poor price paid for product produce more. If more rice demanded = farmers would have area deserted.

Wat. - Eng. 20 Feb. 1806.

1. What ricefields laid out in Yogyakarta during past 10 years and suitable for what expansion?
 - 25% increase in Yogyakarta lands during past 10 years (Nagara Agung).

- Around Kalk Berg: Gunung Samping, N.W. of Yogyakarta. Kali Bedhog. Earlier just jungle but on HB II's instructions.
 - **On Irrigation:** Dam built in River (? Kali Noka) ²¹⁰ and irrigation *sawahs*. Skillfully laid out. Roads thronged with merchants/traders/farmers. To W. of Yogyakarta that can nearly get by on horseback. ²¹¹
 - E/N of Yogyakarta many new lands laid out: *sawahs* spreading up Merapi. New *sawahs* opened up alongside old ones. ²¹²
 - 2. How much value of harvest in each district:
 - Impossible to answer question accurately.
 - But rice much cheaper now than had been for a long time (1806) (only 2 rix-dollars per pikul). ²¹³
 - 3. If farmers take care to plant 2nd harvest in time:
 - Yes.
 - *Sawahs* very rarely left fallow. When one end of a field still being harvested, sometimes the other end already being prepared for next harvest.
 - Usually in space of 2 years = 5 rice harvests gathered in Mataram/Kidhul.
 - Enough water/irrigation to plant in dry season.
 - But low lands in Bagelen in W, Grobogan/E. MN in different situation. ²¹⁴

- If population [is] raising of cattle facilitated in each district [and] enough ploughing animals in [the] Jav. in general v. poor = little progress made in buffalo / cattle rearing.

No lack of beasts of burden - mainly because Jav. Farmer makes great use of those that he already has. Even when cow has just had a calf [it is] still expected to work - this has deleterious effects on quality of livestock. Many buffaloes brought from E/W MN to be slaughtered in Yogya for food.

No one dares to gainsay MB II for fear that rice would be doubled.

Always difficulties negotiating with MB II over money; would never get him to agree to abolishing tax on rice. ²¹⁷

D.R.I. – to most junior Bupati, afraid to broach topics relating to finance to MB II for fear of falling into disgrace and being fined heavily.

Wat always deals in writing to D.R.I./Nayakas, and if D.R.I./Nayakas blamed by MB II, can always take refuge behind Wat's letter.

Question: Free import of salt from N. coast. N. coast salt only consumed in E. MN [Mataram], Pajang, as far as Bayalali. Rest Kedhu, Bagelen, Banyumas, Ledhok, Rima get salt from N. coast.

If salt from N. coast free import — great profit would be made by a handful of traders; rest would not benefit.

Population VH:

But many great infant mortality, for children below age of 12 (See also Kedhu Reg.)

Increase in pop 1 in every 23 in 5 years. 4% p.a.

Number of families (Hearths): * Nunan: 87,000 * Nullan: 90,000 * MN: 4,000
* Total: 181,000

Reckoning every family @ 5 = 905,000 people in VH. 1760-5 = Increase 5,000 for every 100,000 = 950,250

1801 = 1 million 393,000 393,472. In 45 years increase in VH pop. of 488,472. Increase 50% in 45 years. Estimation above probably on conservative side.

1800 - 1805 Increase 63,887. 1 in 23.

Great increase in Desas can be seen by taking a longer time scale: 1785 - 1805

Great increase in av. number of people in each Desa. + Opening up of new land. Est. of new Desas in waste lands. Do not deleterious for old Desas. (10)? Inhabitants of Desas own land/ricefields: The greatest part of Desa inhabitants own their own ricefields. All land is divided into cacahs owned by Sultan. Only mountain dwellers/Blandhong people in Teak forests are excepted, and coolies on roads who find it easy to earn a living, often employed for trading purposes by Chinese/Arabs. As time goes by, courts would get economically/politically stronger vis-a-vis V.O.C. should bide its time in asserting its superiority to Yogyakarta.

(11)? Nature of land tenure/permanent or not? Some districts: 50 men can live on 1 jung of land; in others only 2-4. Size of a jung in one district differs from another. Sawahs split up in a heterogeneous fashion, irregular, but each farmer can recognize his own plot. It is clear that a grandson remains in possession of lands that had been owned by his grandfather. Very little exchange of land unless Lurah/Bikil of a village takes the land for himself and gives it to another. Reasonably common.

(12)? Size of a jung of sawah, whether proportion of ricefields/inhabitants in each village is correct. Some Desas better administered by Lurahs and have more population than others. Some orang menumpang in each village who have no land, but cannot be estimated. Taken: mountain dwellers/Blandhong people who have no land form a very small % of the whole. Great differences in size of a jung in different kabupatens. Locally, Javanese who own no sawah perform corvée services for others. But most prajurits [also some prajurits of Sultan] own no land, but few in number. But most prajurits have land.

Notes on PB IV

PB IV ²²² is a "presto" — a good / Edelmoedig ruler. He is well-loved.

PB IV has a tenacious memory (stale memorie). He is a great friend of priests, who can get him to do anything.

Mulud, Phasa = great numbers of hajis, kannes, and pradikans come to Nala from all parts of Java.

Drove of them, espe. Bysone Garebeg Mulud. Which is not so in YN. / Yogya?

²²² PB IV refers to Pakubuwono IV.

Each priest gets 6–8 ronde pilaar ²²³ from PB IV; PB IV spends a great deal of money.

Extremely shy; always very courteous/polite to residents. PB IV likes to talk and reside at native tournaments, but Van den B. breaks it off. PB IV likes to put off decisions on things ²²⁴.

PB IV is not ashamed to meet and talk to common Europeans. He gets large sums of money on loan from them: *New Barend Nammel lends 68,000 Silver Ronde Maarten*.

PB IV readily gives his word, but goes back on it just as easily on frivolous pretexts. He often feigns indisposition to get out of awkward invitations.

Footnotes

PB does not trust brothers - [no] discovers affair with them. Often goes on town by moonlight with bros. [family]. But leaves all affairs of state to Patih and leaves bupatis a free hand until things get out of hand = then official brought low by NW [new] yet underhand means.

Mangku-bumi = closet Chinese = nit on door of house. Capitan Cina often visits MB. Nie Ting Hoa [?] sits with villa on ground. Close contacts [with] Chinese community in Nala/Kraton.

Chinese Firework Displays ²²⁵ v. popular.

MB only wearing short breeches sees display from bridge nr. fort and troop of young Jav. panakawans = [princes/leaders] of panakawan group.

On occasion of a New Year's party - drawn dagger on Mangku-praja = Patih sends off blow and copper dish pot. Npitoon [?]. Capitan Cina witnesses fireworks to panakawan. One firework hits MB who in cold blood hits Stats [?]. Panakawan and his burns him alive + gunpowder. Creates an uproar.

²²³ *Ronde pilaar* refers to the Spanish "pillar dollar" (real de a ocho), commonly used as currency in the Dutch East Indies.

²²⁴ Written in the right margin: "Netting on long afterwards." 2 legal brothers of PB [Prince/Patih?]: Mangku-bumi / v. proud / should be watched and kept under one's thumb.

²²⁵ Marginal note: "Firework displays" appears twice, once with a star symbol and once underlined in red. ? TO PREVENT AFFRAYS [^p15s-1]

The handwritten text reads: "Gold Farm data for R.T. Reksanig ara Pa. 1807 notes tiry H 696." ## Translation of the Gold Farm letter given by H.H. Sultan Hamengkubuwana II, residing at Yogyakarta Adiningrat on the island of Java

I, Sultan Hamengkubuwana etc., give this letter under my seal to my subject Reksanegara as a proof (evidence) to all my subjects both Bupatis and Manttis who come under my rule in Yogyakarta Adiningrat as well as those in the mancanagara provinces, to make known that the reason why I have accorded this letter to Reksanegara is because I have once again favoured him and hereby permitted him to take the farms of all domains such as bandars or tollgates, rangkahs, salarangs, the gedhong tembakau²³⁹ in Kedhu, the slaughtering of buffaloes, the salterns (salt works) on the south coast and the birds' nest rocks; everything which is under my administration in Yogyakarta Adiningrat for an amount of 60,000 ronde realen silver per annum and in case payment be made in copper duits, the same shall be acceptable at the rate of 1 real for 20 dubbeltjes of 10 duits each.

The tax farm money must be paid in two installments each year; half or 30,000 r.r. at the festival of Mulud and the other half, also 30,000, at the feast of Puasa. Under this tax farm are not to be included my pasars and rangkahs withing the capital (Yogya) as well as those in the vicinity, these being also excepted such as Tanjung Tirto, Tegalsari (with its tollgate) and the so-called pasar perdikan which belong to the priests as well as my pasars and further the bandars in the mancanagara provinces as well as the tollgates along the great river (Bengawana Sala) and the birds nest rocks in those areas be also excepted from the same— furthermore if the tobacco harvest has not been placed in the warehouses and the time of this farm be expired, this article will be considered to relate to this and not to the subsequent farm (similarly with the three collections of birds nests each year) – the farm of the birds nests is worth 12,000 r.r. for each half year, but this is to be separate and not to be reckoned under the previous tax returns, and it is also stipulated that I shall be allowed to send down for my own use 110 sapi pengluput or beasts of burden three times each year without having to pay tolls or other taxes on passing through tollgates, rangkahs and salarangs.

On each occasion that the farm moneys are paid, the pangirings or presents must be: pathoolen (kains); (see n. of Rouffaer), Gold thread, silk, tea, candy, sugar and Chinese sweetmeats (confituuren), candied fruit; consisting of 10 pairs Pathoolen jalamprang, each pr. worth 25 r.r.; 10 pathoolen kanigara, each pr. worth 15 r.r.; if I want pathoolen kenanga people must produce them for me at the same price as the pathoolen jalamprang and kanigara; 10 pounds of Gold thread each of 12 threads and 18 heavy threads; worth 24

reals; 20 catties of silk, of which 9 catties of green and 9 of red and 2 of rose (merah jambu) or light red silk, the cattie I fix at 8 reals worth. These together are worth the sum of 1230 r.r. under which is reckoned the sum of 430 r.r. per half year for the payment of candy sugar, tea and candied fruit (confituuren); the patompos money is reckoned at 10 per 1000 (1 % of the installment), 30 r.r. for the purchase of the serat papak and 31 r.r. for the panglamar or accountant (goldsmith) or Sultan's goldsmith.

If there are some of my subjects who pass tolls carrying loads (pikulans) which do not contain merchandise (negotiable goods), I permit them to pass without paying a toll – if there are any of my family, children or great or small priyayis who possess ricefields and they transport the padi or rice to Yogya either by coolies or on horseback or on other beasts of burden they are also to be allowed to pass through (without paying tolls) – whenever one of my subjects at the time of the Garebeg feast journeys here or even outside the time of the Garebeg and they carry loads with negotiable goods (merchandise) I do not allow that tolls should be raised on them but if the load is asked to be inspected at the tollgate this must be allowed – and if they are found to carry merchandise they must pay the due toll for it, but they must pass through freely if they have no merchandise; people should make a distinction between merchandise and non-merchandise and I forbid that tolls be raised on small quantities of kains and tobacco which are being carried as presents for their lords apanage holders. In the event that a tollgate keeper notwithstanding my order raises tolls on any of my subjects who do not carry merchandise and an argument ensues, he shall be punished by me after an investigation.

Footnotes

investigation of the case and if it is a Javanese who passes the toll with merchandise and he hides it in order to pay no toll or instead of going through the tollgate takes another road and after due investigation this is found to be the case, he shall also be punished by me – and Reksanegara shall retain his 5 Mantris, who shall do work for him when there are issues (historiaalen) concerning the tollgates or when I order him to carry out things and at each Garebeg ceremony Reksanegara must march out as many prajurits armed as an outer Bupati is obliged to do – and Reksanegara shall keep the tax farm for the period of three consecutive years which I have fixed as long as all goes well but if he behaves badly or does not produce the tax properly he shall be dismissed even though the 3 year tax term is not yet up

Apart from Ratu Kencana Wulan, no-one at court has real trust of HB II; clearly the most favoured person at the court.

R.T. Natadiningrat - no. 12 law of HB II also v. highly favoured. R.T. Purwadipura - also often called close to HB II, knows HB II's character v. well & has most say in financial matters. A very ordinary trader known how to give advice most pleasing to HB II.

But like NP, has to pay fines; not so long ago has to pay 1000 R. Reals because without permission HB II had used a certain gamelan.

No one really a favourite or someone who has HB II's full trust. No-one in Yogya kraton really trusted by HB II, still less a favourite. Not even HB II's brother/nephews really has his trust. Not even Crown Prince.

Waterloo - 9 years in Yogya - occasion to really get to know characters at court. Crown Prince = always does much [for] / makes much of second wife / d. of R.T. Natradiningrat. NB II more in favour of J. Ranga. No declared 1st wife on accession to throne in 1792.

Outstanding affairs: * Murdering Chinese Nie Jan by Reg. of Negaran Kyai J. Building of Eur. Kampong. 3. New vegetable garden for fort and penanggrahan. 4. Placing of gladhak of Tazkinan.

MN Labour Force work 90 days in Yogya: * On fort/kraton - But NB II expects more than they can perform. * Pacitan too far from Yogya.

26 Jun. 1808 Ridderorde van het koninkrijk der Nederlanden from SIMON
SCHAMA Director of Studies in History

CHRIST'S COLLEGE CAMBRIDGE CB2 3BU Cambridge 65454

March 22nd 1976

Dear Peter,

Thanks very much for the felicitations. As you know I really didn't expect to
get the job so it all came as an extraordinary surprise. I'm hugely looking
forward to coming to Oxford even though I'm fully briefed as to the agonies
as well as the ecstasies. I hear from Richard that congrats are in order for
you too for getting that plum award from the BA to go East. Lucky s.o.b. —
I'm green with envy at all that lovely research time. Roll on the first
sabbatical.

I do feel terrible about that balls-up I made in Cambridge — how can you
ever forgive me. I was so discombobulated what with the job news and the
sudden and rather dramatic crisis it had plunged Christ's history into that
everything else got swept clean away — milles salaams. That being so I wish
I could be more helpful about your Orde problem. But I'm not sure I can.
Louis did indeed create a Dutch "nobility" on Feb. 14th 1807 but it was
called the Orde van de Unie not, as far as I know van de Nederlandse Leeuw.
On the other hand the latter, as a Lodewijkian creation does ring a faint and
tiny carillon at the far recesses of my memory but I'm damned if I can find
any ref. to it. Have you tried the relevant Colenbrander narrative or the
Gedenkstukken for Feb 1807 or the NNJBk, or the absurd Labarre de
Raillicourt which is very strong on flummery.

Now, as for the Orde van de Unie, my Almanac de Cour for 1809 has it
divided into three orders, the Grand Croix which goes to men of Ministerraad
rank or Rd van Staat as well as to top foreign ministers (Mollien), princes of
Empire, allies etc. Below that comes Commanders including other Raden van
Staat (Appelius, Calkoen) as well as high nobs and notables like Anthony
Hope, and Hodshon the Amsterdam banker-schepen; Pieter van de Kastelee

²⁸⁸ This section is circled in red ink in the original document. Simon Schama

and others of that ilk. The Commanders including people like Gerrit Pijman and Robert Voute seem to me to be partly comprised of a list drawn up by Gogel and another by Mollerus in 1807, but the King was constantly asking for nominees, meeting them and making up his own mind. Third comes the Ridderschap (Chevaliers) of which in 1809 I make there to be roughly some 7-800! Nearly all native Dutch and obviously (and erroneously) including anyone who could be thought to be a friend of the regime or a man worthy of note or open to persuasion by flattery — thus it includes a Bentinck van Diepenheim (how optimistic can you get) as well as Johannes Busch, Anton Falck, Carel Hultman, Reuvens the jurist — virtually all the high elite of the old nobility, Torck van Rosendaels; a van Schuylenburg van Bommende, the van Hasselets and so on. No Indonesian potentates though. It seems likely that the Ridderschap got made up on the same basis as the Napoleonic amalgame — of restoring the trad. nobility and supplementing them with those whom the King was tied to honour. More than that I can't say. Commanders and Grand Crossers had the right to nominate I think so perhaps an award of another Orde was within Daendels's purview — he was a holder of the Grand Cross of course along with Gogel and Schimmelpenninck. But it's odd that in the official Almanac there shouldn't be a mention of the Leeuw, it's not. I should perhaps add that none of the imperial gazettes will be much good since N. refused to acknowledge that Louis had any right to create or reaffirm such ranks and a condition of the limited partition of March-April 1810 was that it was abolished.

Sorry I can't be more helpful. Have you tried writing the Ilde Afdeeling or even the KB?

See you soon I hope — I'm off to the States for a bit,

Eve.

Footnotes

HBII protests about Minister taking his place at same level or *dhampar* at left-hand side, 1-1½ feet from HBII. Because "Minister" is immediate representative of Daendels, should be treated as Governor of N.E. Coast and name ceremony.

The art: CP/Princes of Blood to be received by Minister, although Princes of Blood regarded as lower in rank than PRII. Earlier, *Opperhoofd* higher in rank than PRII; lower/more junior in rank have to "nowan" [?] *nenion*. New ceremonial laws to be accepted equally by both courts—PBIV makes no request for changes.

Now that Minister's coach not required to stop when meets HBII's coach, in order to avoid unpleasantness, HBII to warn Minister wherever he plans to go out. HBII will place confidence in discretionary [powers of] Minister Daendels.

P. Eng. asks to be moved to Batavia for family reasons. Daendels appoints as replacement J. W. Wiese. Brother G.G. A. H. Wiese. Newly appointed Minister "man of most character and true heart" would act in same way *foot* as Eng. had done to HBII. HBII/CP had to see Eng. go because he had all qualities necessary to fulfill important post of Minister at courts.

Archival Markings

The document features a circular stamp in the lower-left corner reading "ARSIP NASIONAL REPUBLIK INDONESIA" with a central emblem of the Garuda Pancasila. In the bottom-right corner, there is a vertical handwritten notation: "Yogya 1808". The document consists of a sheet of lined paper with three holes punched along the left margin, showing signs of rust staining around the holes and along the vertical edge where it was likely attached to a binder.

The following handwritten annotations appear on the page:

- In the upper right corner, written in red ink: "Sultan's Troops Mar. 1808 Waterloo."
- In the left margin, running vertically parallel to the binding holes, written in faint graphite: "from A P Pr. no 45" *from An 1845 opgave van inkomsten en troepen*

Djocjocarta den 22 Maart 1808. 23 May - 1808 15 Jun 1808 Yogya/Nala 1808
Dj. Br. 23.

29 May 1808

D asks for information on state of Yogya Court. Eng. replies that sudden arrival of D in Semarang on 12 May and raising of troops had caused HB II concern and invitation to send courtiers to Semarang not in old adat. But after receiving letter from Daendels 16 May, changes attitude and agrees to send delegation to Semarang and agrees that son of W should attend review of troops.³³⁵

³³⁵ People had tried to poison [the] relationship of HB II / D by telling him that D's assembly of 3-4,000 extra troops in Semarang [was to] defend Java v. British not against Yogya. Eng. tries to impress HB II [with] power/prestige [of] Dutch moves. HB II's reactions to D's moves.

2 Jun 1808

19 cavalry horses to be sent from Yogya to Semarang. 6 xeroxes of list of HB II's troops, commanded by EO, paraded at Rajawinangun on 1 Jun.

4 Jun 1808

Because of sickness of R.T. Pringgakusuma, old P. Adiwijaya sent instead.

2 Jun 1808: Report on HB II's troop manoeuvres at Rajawinangun

1 Jun, general mustering of troops at Rajawinangun. The Crown Prince in N.E. part of kraton, accompanied out to Rajawinangun and 9 young nobles Panyio, ³³⁶ noted in yellow camool and trousers, over green velvet, ovalled without wifs, afgezet and gold passement and black velvet mutsjes, all sitting on lounged Schimmel horses. Party post themselves at W. Bastion. Kraton after passing Paseban to see troops file out, go to J.E. of kraton, see HB II sitting and all Ratu/R. Ayu. Old Dolwerk (bastion) watching troops marching out. Greeted in a friendly fashion by HB II. Ride around kraton and out to Rajawinangun.

Eng. [Engelhard], 9 Aug. 1808. In fact 27 May 1808. In June = 250 Javanese from Mataram attack post of Bunder in Oonthoek [?]. ³⁶³ Flee into woods in direction of Kantanara (in Yogya territory).

Report delivered on return of commission yesterday. But can find nothing. Warns P. II not to allow subjects to make razzias over border into government territory & allow criminals to hide in VL. ³⁶⁶

Trust to get P. II to agree to holding a conference at Klaten ³⁶⁷ & Res. [Resident] of Nola/Yogya. Eventually results in Sept. 1808 Treaty on criminals. Daendels ³⁶⁸ had postponed conference until after Patih's had paid their respects to him in Semarang in July.

Pieter Gulin -> P. Eng. & 2 Royal Mantris Angabaya, Nantawikrama, 19 Jul. 1808, to investigate affair in Kertasana & 2 Nala ³⁶⁹ Mantris. Daendels' declaration to Patichs at Semarang

I receive with much pleasure and sincerity the homage of the Susuhunan ³⁷⁸ through his Prime Minister and further ambassadors.

I do not consider this solemnity in the light of homage of a vassal to his lord paramount, the feudal system having been abolished in Europe, but I look upon it the same as congratulation on my safe arrival on this island and on the commencement of the administration of H.M. possessions in India.

³⁷⁸ Handwritten note: "Sultan" is written above "Susuhunan". endearour to maintain peace and to render the inland of Java as prosperous as possible.

The East India Company and the Republic of the United Provinces had lost their former influence in Europe, but the election of the Emperor's brother Louis Napoleon to the throne of Holland has caused the political influence of that country to be re-established both by adopting a more energetic mode of administration and by a most intimate union with the mightiest Empire in the world. It is the wish of King Louis to promote the happiness of his subjects on the Island of Java and to give them peace, prosperity and a benevolent government.

And I do solemnly declare in the name of His Majesty the friend and protector of the Princes and inhabitants of Java that I will...

10 Oct. 1808

Eng. [Engelhard] to D. [Daendels](#): Thanks D. for hospitality during recent stay in Semarang. 10 Oct. 1808 HB II's [Hamengkubuwono II] emissaries arrive. Back in Yogya, greeted with proper ceremony. Bring letter from Nic. Gen. Veekens [likely referring to Daendels' subordinates/representatives] and compliments of D. to HB II. Tells HB II of reasons for D.'s hurried departure from Semarang to Batavia (not letting on to Eng.'s view of it) and trying 3rd/4th hand to sound out HB II's [reaction] to Govmt's [Government's] financial situation. Already known by many Yogya courtiers: *poor financial situation of Government*. Raising of salary of minister. Van B. [Van Braam] to come to Yogya.

17 Oct. 1808

Van B. greeted by HB II op zijn manier [in his own way] in friendly fashion. Astonishing difference in friendliness in Yogya. HB II cannot speak Malay: difficult to converse with him. Has a norty [naughty/malicious] wild look in his eyes (verwilderd oog van het oog) which indicates suspicion and fear.

Rampog macan = Tendons of leg of karbonw [kerbau/buffalo] cut by tiger. Refuses to fight. 2nd tiger — jumps clean out of ring and killed behind place where Sultan was sitting. This incident, which had never occurred before during Rampog HB II, caused many to make conjectures with regard to me. HB II makes Van B. a compliment and says that occurred in V.B.'s honour. CP [Crown Prince] seems a really nice person, very affable, talkative, but like all those around HB II, deathly afraid of Sultan. Not allowed to see interior of kraton, but only estates/pendanggrahan which were beautifully laid out.

Forms poor opinion of Rangga's character: very dangerous person, very irascible, resentful and enterprising who gives in to nothing (die maar in niets toegeeft).

Footnotes

Nala court complains about 35 *pran pinghupat* held up by Rangga on Nala River. Rangga says he had released them [to a] commission to investigate. On return journey from Nura-Baya, all other *bandars* in consideration had let his flotilla pass by without paying toll, but only at Bandar of Rangga had they been held up. [He] cannot reply, but [is] nonetheless willing to release *prans*. BLADD. MS. 12303 J. 118v on Sa. Bl. Add Ms. 12303, Eng acts v. cordially in affair [and] HB II suggests to await their decision until result of commission.

On last day, Van B[raam] rides out of fort in carriage. On etiquette: to go to Residency [is] just opposite. Rangga cuts Van B's path and cuts dead by Rangga riding to Pasebaan. Who rides across Van B's path? Coachman of Van B has to stop dead. An affront—esp. as Van B has gold payong on carriage. Eng suggests to complain to HB II when they take leave. HB II criticizes conduct of Rangga. Rangga apologizes, saying action [was] not intentional. HB II asks Van B if R[angga]'s apology [is] enough.

Public Apology of Rangga

Van Braam says no—wants R[angga] to apologize in public before all *adidalems*. Which HB II immediately ordered and R[angga] carried out promptly. His foul mood with embarrassment in proper turns in a loud voice. Affair creates a sensation at court: amazement could be seen on everyone's face. Then toasts drunk and Van B, Eng take their leave.

On return to Nala, another agreement reached at Klaten and [with] Patis regarding *gladhag*. Rangga also present at meeting—Van B treats him as though nothing had happened but face shows embarrassment. PWD also at meeting—that Yogya delegation in outwardly v. friendly fashion—appear to be greatest friends.

Hendrik Deeken comes to Nala and would go on to Yogya. Sec[retary] Van B about to leave for Batavia and Van B asks D[eecken] to generate a letter to HB IV about his departure.

- **Wiese / Daendas**
 - **26 Jan 1809:** Rumours large mil. exercise (Nala). Rumour transmitted by Daendas that at Jala [a]nusually large military exercise (exacisies) takes place. R.J. Natadiningrat, Kyai Sindunesara [dispatched] to Jala to ascertain truth. Provide troops for Daendels & plan to attack Yogya if auxiliary troops [are] forthcoming from Daendels.

Little disturbance caused in Yogya by this but worry about army manoeuvres by P. Prangwedana.

Col. Behrard & Capt. Raut pay compliments to Prangwedana [makes P.B.iv jealous; hence troop movements].

If English make an attack on coast of Java = Javanese reinforcement troops ready.

Letter Daendels to Sultan: Proceeding usual delivery of cartridges & bayonets. 500 lbs of gunpowder to be given each year.

1 Feb 1809 Wiese, Daendels: Danureja enjoins Wiese that Sultan HB II had given him an order to gather male inhabitants of town for military exercise. [Mil. Exercise]

Also orders sent out to all regents to hold themselves in readiness. [Clearly caused by recent events in Java] [No loss of disparagement to military exercises or P. Prangwedana/P.B.iv].

Impossible for Wiese to go to Sultan to remonstrate. Daendels roll from his carriage but leaves it to Dr. II. A.N. No. 22.

1809 (Yogya) 1809 (Feb-April)

- Crown Prince visits Wiese & Sec. Woortman and Comm. de Chasteauneux.
- Makes tour on horseback.

2 Feb 1809 Wiese -> Daendels: Letters MB II -> AR II cancelling army manoeuvres. (He should proceed to similar ridiculous action should be cleared from Java.)

8 Feb 1809 Wiese -> Van Braam (Ministre van): Collecting money for war treasury from citizen/EW. officials at Yogya: * Lt Col de Chasteauneux: 20,000 (Rendanten) * W.H. Boev: 20,000 * Hospitaler Baumgarten: 15,000 * C.H. Klein: 25,000 * Capt Baksman: 10,000 * Citizen E. Kleung: 15,000

11 Feb 1809 Wiese -> Daendels: Desa Paderesan (in Yogya territory) plundered [by inhabitants] from Surakarta. Followed up by a detachment of mounted troops from Yogya.

17 Mar 1809 G.W. Wiese -> J.A. van Braam: Willem Baron van Rheede tot de Parkelen leaves 39,000 sp. matten for P. Prangwedana.

22 Mar 1809 G.W. Wiese -> Van Braam: Each year Sunan/Wulwun allowed to load 6 Prauws tax free up Jala River to Gresik for purposes of trade. Fact that Sunan raises his number to 10 causes annoyance/jealousy of the Sultan, asks to be allowed 10 also. **27 March 1809 (Weese to Van Braam)** Refusal to put Bardhag Parawangan under Ondege Chinese, Jie Hockong.

Message sent to R. Rongga (Madiun) and Sasrakusuma (Grobogan). R. Rongga expected in Yogya.

2 April 1809 (Weese to Van Braam) People arrive from E. MN.

11 April 1809 (Weese to Van Braam) R. Rongga arrives from Madiun for Puasa festival; at work face for Sultan.

14 April 1809 Questioning Piagem for Chinese tax-farmers, J. Gusti, in Grobogan area between Sasrakusuma and Chinese Jo Kong Ing.

17 April 1809 (Weese to Daendels) Questioning teak wood trade which favors takes-out by the Mandog local Regents. Teak from E. MN in Blora. Chinese, other private persons to cut wood for Government.

General Notes on Trade and Governance Regents, but particularly severe for the common man: because no rice cultivation and forced to make their living from collecting wood.

BW MB [1] wishes to end pinching wood in his teak forest: (for last 6 months).

Regents to be informed that teak forests would be hired from the Regents by the Government, but common men allowed to sell wood in small quantities to Government.

Important to keep the districts free of evil people—many come to that area from Pasir to cut down wood.
